Dear colleague (s)

This is for your kind information that department is going to hold the Board of Studies (BOS) for the courses which are running in the department. In this regard, you are requested to share your suggestions/inputs and feedbacks for the same. Kindly provide your feedback and the valuable suggestions with justifications up to 14/12/2019.

1. Changes required in the course taught by you during last three years?			
Course Title	Feedback	Suggestion	Justification
Choice Based Open Elective (CBCS) Comp-254 Computer Applications and operations	In this course Need to eliminate the unit-II course unit-III & IV to include some useful IT Applications & Need to rearrange the unit IV.	Unit 5, The theory of Informatics Systems should be added. Include the Google Apps & some research Applications in unit Praxis Revision in unit-III & IV.	This course is offering to the master level students of various disciplines so. There is a request to make aware about the studies Computer knowledge on the level.
MC-456 Statistical Analysis	Need to revise	Need to change the tools of statistical analysis i.e. Advance version of SPSS etc	It should be necessary to offer the latest tool for Technology for the Computer subject.

o/c

MC-552 Computers Graphics	No need to change	No Need to change	Already justified
MC-557 web printing	No Need to change	Change Not required	Already updates
MC-561 Cloud Computing	No Need to change	Change Not Required	Already Justifiable

2. Whether you would like to suggest starting new courses/papers? If any, provide the details below:

Course Title	Expected Outcome	Suggestion	Justification
Lab on Python Programming	Python is a Data Science based programming language. Students would be able to work with Big Data.	This course should be totally based on Practical.	After completing the degree program, our student might be in Industry. The focus of Industry is always on R&D. So, it is important.
MCA-156 Mathematical Foundation	Student will be able to understand the Computational Technique.	This course should be in the study of Semester first for those student who are not good in mathematics.	mathematical logics are important to understand the Computational operation.
Operation Research	This course is based on optimization technique. Students might be able to understand the Real problems Related to optimization.	This course should be included.	It is also useful to qualify the UGC-NET examination.

3. Whether you want to exclude/change any course/paper or course contents from the existing course curriculum? If any, provide the details below:

Course Title	Suggestion	Justification
<p>object oriented programming using C++</p>	<p>It should be replaced by any lab course of Non object oriented programming. Pradyn.</p>	<p>Students are studying Java program in the same rather advanced pattern.</p>

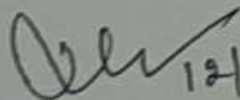

4. Any other suggestions:

Suggestion	Justification
<p>All the courses should be offered under the UGC/ AICTE guidelines</p>	<p>MCA is a AICTE approved course.</p>

--	--

The duly filled format has to be submitted in the office of the undersigned by or before 14th December, 2019 positively.

Thanking you.

 12/12/2019

Dear colleague (s)

This is for your kind information that department is going to hold the Board of Studies (BOS) for the courses which are running in the department. In this regard, you are requested to share your suggestions/inputs and feedbacks for the same. Kindly provide your feedback and the valuable suggestions with justifications up to 14/12/2019.

1. Changes required in the course taught by you during last three years?			
Course Title	Feedback	Suggestion	Justification
MC-241 (Software Engg)	in first two units System Analysis & Design need to be excluded & advanced topics in S/E may be included.		The paper aims to learn S/E. SAD is meant for design & development of systems.
(QABMS)	this paper need no changes.	—	—

<p>(MC-344) Java Programs</p>	<p>The paper covers almost all the basic programming concepts, including files & Applets.</p>	<p>NO change</p>	<p>—</p>

2. Whether you would like to suggest starting new courses/papers? If any, provide the details below:

Course Title	Expected Outcome	Suggestion	Justification
1. Python need to be introduced	Students should be able to work on Python which is demand of the Academia / Industry	Basic Python programming concepts to be included in the paper.	- do -
2.			

3. Whether you want to exclude/change any course/paper or course contents from the existing course curriculum? If any, provide the details below:

Course Title	Suggestion	Justification
<p>Course code: M1-443 Name: Project need to be changed from <u>00</u> credit to <u>04</u> credit</p>		<p>As the value of it was in this course does not justify or credit evaluation</p>

4. Any other suggestions:

Suggestion	Justification
<p>① Course code: M1-141 titled Mathematical Foundations of Computer Science need to be changed to Discrete Mathematics</p>	<p>The concept of Discrete Mathematics is being used in Data & File Structures etc.</p>

② PC software in Sem-I may be removed from the scheme

③ operation systems paper in Sem-I need to be updated with some advanced topics on Unix/Linux etc.

④ MC-342 - Title need to be changed "Data Communication & computer networking"

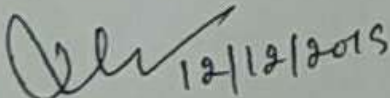

⑤ MC-442 & MC-543 need to be combined so that the student doesn't pay any extra fee.

⑥ MC-541 - need to be placed under elective list.

⑦ Data warehousing & Data mining may be removed as Data mining & game need to go ahead as core paper in the lab. may also be included in the paper.

The duly filled format has to be submitted in the office of the undersigned by or before 14th December, 2019 positively.

Thanking you.

 12/12/2019

BGSB University, Rajouri.

Dear colleague (s)

This is for your kind information that department is going to hold the Board of Studies (BOS) for the courses which are running in the department. In this regard, you are requested to share your suggestions/inputs and feedbacks for the same. Kindly provide your feedback and the valuable suggestions with justifications up to 14/12/2019.

1. Changes required in the course taught by you during last three years?			
Course Title	Feedback	Suggestion	Justification
Web Technologies MC-543	(1) Half portion of Unit-IV is already covered in MC-442. So needs some changes (2) Unit V also needs to be modified.	Remove the repeated contents from Unit IV. Master Pages must be included in the course.	Contents already covered in Course MC-442.
	(3) IIS in Unit I needs to be shifted in Unit-III	Introduction to IIS needs to be in Unit-III	In order to Maintain Symmetry of the course.

Cryptography
& Network
Security
MC-541

No change

Dot Net
Technologies
Using C#
MC-442

No change

PC Software
MC-171

No change

2. Whether you would like to suggest starting new courses/papers? If any, provide the details below:

Course Title	Expected Outcome	Suggestion	Justification
Python Programming	Students will learn Python programming	Must be included	used in Research
Natural Language Processing	students will learn the concepts of NLP.	-	Research oriented Course

3. Whether you want to exclude/change any course/paper or course contents from the existing course curriculum? If any, provide the details below:

Course Title	Suggestion	Justification
(1) PC-Software	Needs to be either excluded from the programme or its contents should be changed/modified	Course contents are of basic level.
(2)		

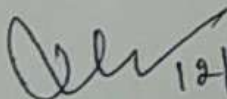

4. Any other suggestions:

Suggestion	Justification

Dear colleague (s)

This is for your kind information that department is going to hold the Board of Studies (BOS) for the courses which are running in the department. In this regard, you are requested to share your suggestions/inputs and feedbacks for the same. Kindly provide your feedback and the valuable suggestions with justifications up to 14/12/2019.

1. Changes required in the course taught by you during last three years?			
Course Title	Feedback	Suggestion	Justification
MC-144 C-Programming?	This course covers all the concepts of problem solving & C-programming.	No changes required in this course.	This course is one of the core subjects of MCA and keeping in view the intake of students from various streams other than B.A.
MC-243 Data & File Structures using C++	This course covers all the essential concepts of Data and File structures.	Lab 3: C++ can be merged with data structure Lab.	Students can practice C++ and data structure in one lab slot.

<p>544 Artificial Intelligence</p>	<p>This course covers basic concepts of Artificial Intelligence and lisp programming</p>	<p>Needs modification in course contents.</p>	<p>As no lab is provided, lisp programming can be replaced by other concepts of AI, like Fuzzy logic.</p>

2. Whether you would like to suggest starting new courses/papers? If any, provide the details below:

Course Title	Expected Outcome	Suggestion	Justification
Principles of Machine Learning	The students will be introduced to the basic concepts of Machine Learning.		Keeping in view the present scenario, ML course needed to be added in syllabus.
Python Programming	The students will learn Python programming.	-	Python programming is widely used in health and data sciences.

3. Whether you want to exclude/change any course/paper or course contents from the existing course curriculum? If any, provide the details below:

Course Title	Suggestion	Justification

4. Any other suggestions:

Suggestion	Justification
1. Come on Natural language processing can be added as Elective subject.	This course will the students we want to go for higher education (Phd)
2. Come on skill	This course will impart

development - like
Computer hardware
and Networking can be
introduced.

3. Course on Android
can be introduced.

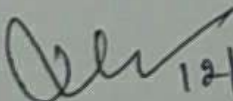

skill development among students.

- Android application development
has better job opportunities.

Rayi

Dear colleague (s)

This is for your kind information that department is going to hold the Board of Studies (BOS) for the courses which are running in the department. In this regard, you are requested to share your suggestions/inputs and feedbacks for the same. Kindly provide your feedback and the valuable suggestions with justifications up to 14/12/2019.

1. Changes required in the course taught by you during last three years?			
Course Title	Feedback	Suggestion	Justification
MC-142 Digital Electronics	UNIT-II is very big. It need to be divided: ② Basic Concept of Encoder and Decoder should be in the combinational logic	Multiplexer and Demultiplexer should be included in combinational circuits. Same change in the UNIT IV is required.	
MC-242 Computer System Architecture	no change required		

MC-341		Randomized- Algorithms should also be Included	
MC-441 Theory of Computation	no change required.		
MC-171 Lab-1 PC software	This subject needs to be replaced with some new programming language.	Python should be introduced.	There is lot of scope of Python in the Industry.

2. Whether you would like to suggest starting new courses/papers? If any, provide the details below:

Course Title	Expected Outcome	Suggestion	Justification
Python Programming	Students will be ready for the job in IT Industry		There is lot of Jobs of data Scientist in IT Industry. Python is applied for data science problem.
Discrete Mathematics	Student will learned about the basic mathematics useful in Computer Science	Syllabus of UGC NET should be followed.	Discrete structure is the required Subject useful for UGC NET Exams.
Compiler Design		It should be included as a main paper of the Curriculum.	This subject is the part of Syllabus for UGC-NET Exam

3. Whether you want to exclude/change any course/paper or course contents from the existing course curriculum? If any, provide the details below:

Course Title	Suggestion	Justification
PC-Software	This is not required for MCA Curriculum	As most of the students already know the basic of PC-Software
Cryptography and Network	It should be Elective paper	Any student who want to pursue further studies may opt this subject

4. Any other suggestions:

Suggestion	Justification
In Each Semester, 5 paper should be the part of Curriculum.	As current paper is not covering the whole syllabus of the UGC-NET

Soft Skills Development

Course should be introduced

MATLAB should be included

The duly filled format has to be submitted in the office of the undersigned by or before 14th December, 2019 positively.

Thanking you.

Teachers' Feedback analysis report

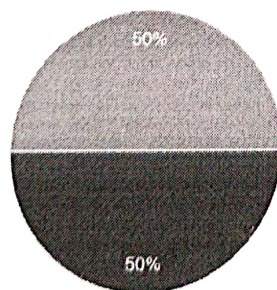

Feedback on various aspects of curriculum is sought from 02 faculty members presently engaged in teaching Environmental Sciences. As teachers play a pivotal role in designing and implementing the curriculum, the inputs received from their feedback was taken into consideration for further necessary action wherever applicable.

50% of the faculty strongly agreed and 50% of them agreed they have freedom of adopting ICT enabled techniques of teaching. 50% of the teachers strongly agreed and 50% agreed that the objectives and outcomes of courses are well defined and clear to teachers and students. 100% of the teachers disagree that the books available in the library are not sufficient to meet teaching in the Department.

- The analysis of the teachers' feedback reflects the adequacy and availability of teaching-learning facilities.
- The feedback from the teachers revealed the validity and adequacy of the syllabus. Also, it is quite helpful in reframing the course content according to the societal needs.

The graphic representation of some part of analysis is given below:

I have freedom of adopting ICT enabled techniques of teaching
